Tempe, AZ | aranja15@asu.edu | [linkedin.com/arjunranjan](https://www.linkedin.com/in/arjunranjan) | arjunranjan.com

EDUCATION

Arizona State University

Expected Graduation: May 2026

Accelerated Bachelor's and Master's of Science in Computer Science | 3.92GPA

Dean's List - All Semesters

Relevant Coursework: Data Structures, Object-Oriented Programming, Database Management, Compiler Design, Operating Systems, Software Engineering, Theoretical CS, Data Analysis, IOS Development, QA Testing

TECHNICAL SKILLS

Programming: Intermediate - C/C++(2yrs), SQL(2yrs), Java(1.5yr), Python(1yr); Beginner - MATLAB, Javascript, ReactJS, NodeJS, NextJS, Assembly, SwiftUI, R, Junit

Software and Tools: Git, Unix/Linux, SSH, Kernel Development, Firebase, Bash, iOS, Figma, Spring Boot, RESTful

EXPERIENCE

Software Engineering Fellow

July 2024 – September 2024

Headstarter

Remote

- Developed and deployed three full-stack applications, leveraging ReactJS, Next.js, OpenAI, AWS, and Stripe API
- Led a team of 4 engineering fellows, implementing Agile and CI/CD practices, reducing deployment time by 50%
- Optimized backend services, cutting API response times by 40%

Gold Guide

January 2023 – January 2024

New Student Programs - Arizona State University

Tempe, AZ

- Guided 15,000+ incoming students, ensuring a seamless transition into ASU with personalized campus tours
- Organized and executed 10+ large-scale student engagement events increasing first-year retention
- Implemented improved engagement strategies, increasing student participation in ASU programs by 15% through strategic outreach and peer-led initiatives

PROJECTS

XSEED.ai ATS Capstone | Java, PostgreSQL, MongoDB, RESTful

September 2024 - May 2025

- Developed RESTful authentication APIs using Spring Boot, enabling secure user registration and login with JWT-based authentication
- Integrated MongoDB for storing user data and designed efficient database queries for authentication and profile management
- Assisted in backend development, focusing on authentication, login validation, and user management
- Collaborated with the frontend team to align API responses with the UI, ensuring smooth data flow

AI Flashcards | React, Next, Firebase, OpenAI API

September 2024

- Developed an AI-driven flashcard system, automating content generation to enhance student learning
- Designed a seamless UI, ensuring accessibility for diverse users, similar to making educational content more understandable
- Implemented a personalized learning experience by enabling users to generate custom AI-powered flashcards, adapting study materials to individual needs and improving retention rates

LEADERSHIP EXPERIENCE

Head of Computer Science Department | Delhi Public School, Mathura Road

April 2020 - June 2021

- Led and mentored students in organizing inter-school and intra-school coding competitions, ensuring structured execution and peer learning
- Provided technical mentorship in programming and engineering challenges, applying structured problem-solving methods
- Judged competitive coding events, applying analytical skills to assess performance
